

CHESS ANYONE?

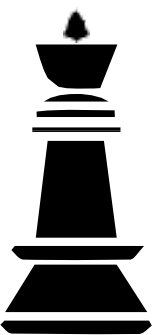

Bryant Chess Club is a robust parent-run club open to all students (K-5th) of all skill levels to meet, play and learn more about chess.

This year the club will meet most Thursdays from 2:30-3:30 October 12th-March 15th (20 sessions)

Chess club is organized by Bryant parents and taught by hired coaches in the community. Players are placed in groups based on general skill and grade level. Emphasis is placed on sportsmanship, learning to play a good game of chess, making new friends and having fun.

In addition to attending Thursday club, players are encouraged to attend regional tournaments; some players compete regularly in local, state and national events. Bryant Chess Club hosts the Bryant Fall Classic in December, which is one of the oldest scholastic tournaments in the state. For those planning to attend the State Championships (April 21 in Pasco), or who are still going strong in the spring, there may be additional partially-funded club instruction available (TBA).

There is a **\$140 club fee** that pays for coaches, supplies and scholarships; parents who organize the club volunteer their time.

PARENTAL RESPONSIBILITIES:

- 1. It is your responsibility to make sure your child makes it to sessions and is picked up by 3:30 p.m.**

If you are consistently late picking up your child, we will have to ask you to withdraw your student's membership and participation in the club.

- 2. Parents are asked to volunteer to supervise** one chess club session over the chess season.

It is very important to have parent volunteers to help keep track of students and maintain a respectful and fun learning environment. You do not need to know how to play chess. We will follow up with an email inviting you to select your volunteer dates on "Signup Genius."

- 3. To volunteer, you will need to complete the district's volunteer requirements.**

Complete the steps outlined at bit.ly/bryantvolunteering. Contact Community Volunteer Coordinator Ann Marie Patterson, ampatterson@seattleschools.org with any questions about the requirements.
